

Student Spotlight: Saloni Patel

Submitted by Patricia Wolf and Teresa Barnes, The Baldwin Administrative Team

Saloni Patel came to Baldwin Foothills in July of 2023, transferring from Lake Taylor High School in Norfolk, Virginia. She earned 12 high school credits in 8 months, meeting all graduation requirements. She worked all the while as a part-time waitress for Waffle House, reporting to work at 6 AM each day.

From the moment she arrived at Baldwin Foothills, Saloni quickly became a friend to everyone. Her sunny disposition and commitment to excellence were inspiring to her peers. Saloni loves taking long drives, listening to music, playing tennis, and board games. Following graduation in June, Saloni plans to attend Georgia Military College in the fall. After obtaining her Associate's Degree, Saloni plans to attend Georgia Southern University to major in Business.

We are so proud of her achievements!

Message from the Superintendent

Yes, we are all so proud of Saloni Patel and all the young women and men like her who have found a home and a path to success at Foothills.

Behind this month's short and sweet Spotlight is a story we have seen so many times over the course of the last decade since our inception: a young student with skills and determination who comes to us needing to earn her credits while working to help support herself financially. Doing it all with a "sunny disposition and a commitment to excellence" just makes the story that much better.

This is indeed a triumph for Saloni, her teachers, and all of Foothills. It is what we are all about. —*Sherrie*
